Doji Star

This is a bullish reversal candlestick pattern that is found in a downtrend and consists of two candles. First comes a long red candle, followed by a Doji candle (except 4-Price Doji) that opens below the body of the first one, creating a gap. It is considered a reversal signal with confirmation during the next trading day.

MARUBOZU CLOSE

BULLISH BEARISH

RELIANCE :

1. When the candle after the Marubozu opens in green, it's confirmation of positive uptrend. You can take a buy position.
2. The bottom price of the Marubozu candle is the stop loss. If the price goes below this after you take the trade - sell and exit.
3. Check out the volume on the day the Marubozu has been formed. It's significantly higher than the other days. This is a positive sign.
