About IIT-M Pravartak

IITM Pravartak Technologies Foundation is a section 08 company housed within the Indian Institute of Technology Madras, operates as the Technology Innovation Hub on Sensors, Networking, Actuators, and Control Systems (SNACS), funded by the Department of Science and Technology, Government of India, under its National Mission on Interdisciplinary Cyber-Physical Systems. Dedicated to preparing India's youth for the forefront of technological advancement, our core activities include technology development, entrepreneurship development, human resource development, and international collaboration. By fostering an ecosystem that integrates academia, industry, government, and international organizations, IIT-M Pravartak facilitates the translation of fundamental research into practical products, driving innovation and shaping the future of technology.

About GUVI

GUVI is India's first Vernacular EdTech platform of its kind. GUVI stands for 'Grab Ur Vernacular Imprint', dedicated to making technical education accessible and effective by breaking down language barriers. Our pioneering EdTech company is incubated by India's premier institutions, ensuring the highest standards of quality and innovation. We aim to make a significant impact in the field of tech upskilling, opening doors for learners across India to acquire valuable technical skills in their vernacular languages. By democratizing tech education online through prominent partnerships with Google-for-Education, UiPath, NASSCOM, & AICTE, GUVI has made it possible to impart job-ready tech skills to the ambitious aspirants.

Placement Guidance

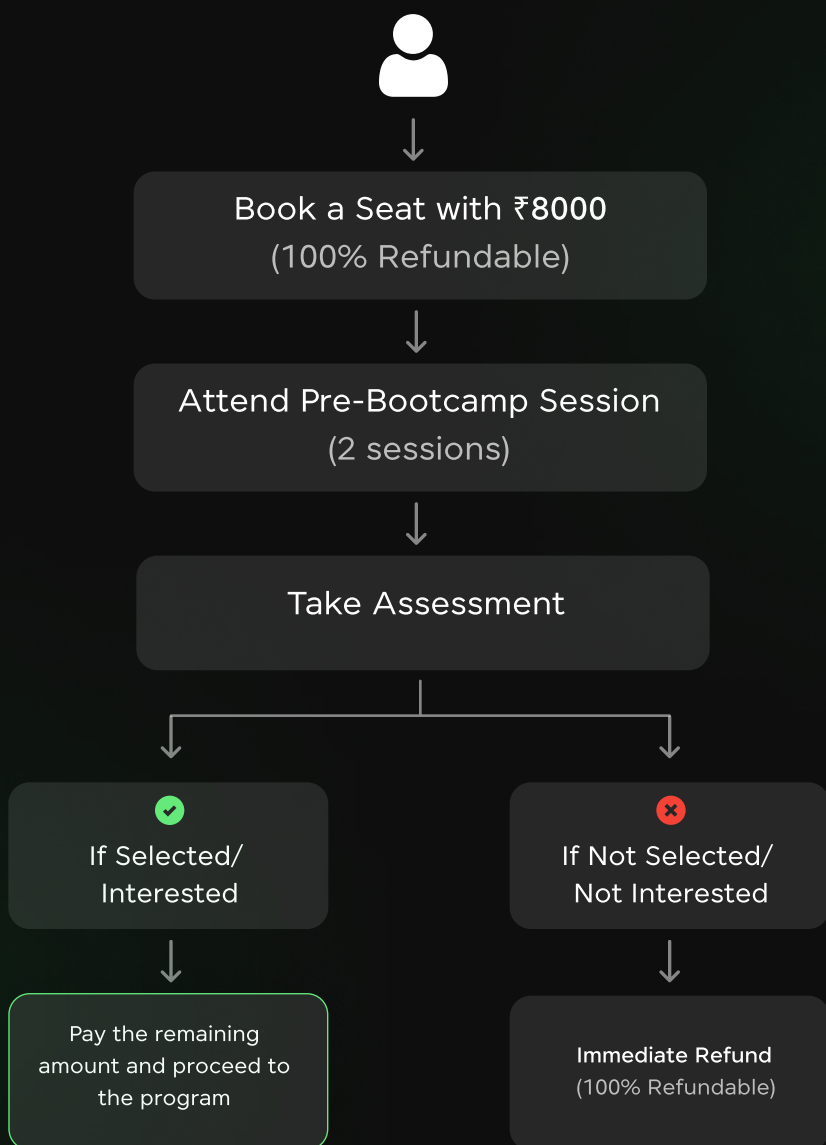

Highlights of GUVI's Full-stack Development Course

- ✓ 1-on-1 Mock Interviews with Industry Experts
- ✓ Advance in Coding with 100+ Hours of Industry-Relevant Practical Projects & 200+ Problem Statements.
- ✓ Learn AI tools to Code faster, better, and more precisely.
- ✓ Live online classes and Lifetime Access to Recorded Sessions
- ✓ Unlimited access to Programming Practice Platforms with 1500+ Problem Statements
- ✓ Unlock Your Career Potential with Our Placement Guidance.
- ✓ EMI options available(Up to 12 months) with 7-day Refund Policy

Enjoy our AI-integrated Learning

- ✓ Get 24/7 AI-chat support for project-related doubts
- ✓ Leverage AI tools to accelerate your learning and coding efficiency
- ✓ Practice mock interviews with AI interview tool

How Does GUVI's Zen Class Work?

Top Skills You'll Learn in FSD (MERN) of Zen Class

- ✓ Front End Development
- ✓ Back End Development
- ✓ Data Structure & Scalability
- ✓ Interview and Corporate Skills
- ✓ Building project portfolio and more!

Tools & Technologies Covered

HTML

JavaScript
(including ES5 and ES6)

CSS

Bootstrap

ReactJS

Redux

MySQL

MongoDB

NodeJS

Express.js

Mongoose

VS Code

Postman

AWS

Self-Paced Learning with Add-on Courses

- ✓ Data Structure & Algorithms
- ✓ System Design
- ✓ AWS

IITM Pravartak Certification & more

Earn Full-stack development certifications including IITM Pravartak, NSDC, GUVI, and more, validating proficiency in prominent programming languages and frameworks.

Full-stack Development

Course Curriculum

Crafted by industry-leading professionals to guide you towards lucrative career opportunities.

Module 1 - JS Basics

Explores foundational JavaScript concepts and ES6 features like arrow functions, object destructuring & more.

Topics

- ✔ Introduction to web
- ✔ How do web & browser work?
- ✔ Js Browser vs Node js
- ✔ Data types
- ✔ Window & document object
- ✔ Hoisting & scope
- ✔ Functions & its types
- ✔ Array methods
- ✔ Array and JSON iteration
- ✔ ES5 vs ES6
 - this keyword, rest & spread operator
 - Array & object destructuring
 - Arrow functions

Module 2 - HTML, CSS, Bootstrap

Focuses on web development essentials with HTML, CSS, and Bootstrap, covering basic tags to advanced styling techniques.

Topics

✔ HTML

- What is HTML?
- Basic tags in HTML?
- Inline vs block element
- div vs section vs article
- HTML forms & Form input element with its attributes and HTML form submit

✔ CSS

- What is CSS?
- property vs value
- Selector:- tag vs class vs id
- Intro to pseudo-classes (link, visited, hover, active)
- parent inherit
- Box model - margin, padding, border
- Flex - display, direction, wrap, flex-flow, justify-content, align-content
- Position property - static, relative, absolute, fixed, sticky
- overflow property - hidden, visible, scroll, auto
- box-shadow property
- Media query
- Use of Font & icons

✔ Tailwind CSS

- Working With Colors
- Container & Spacing
- Typography
- Width & Height
- Layout & Position
- Backgrounds & Shadows
- Borders & Border Radius
- Filters
- Breakpoint Classes & Media Queries
- Columns
- Flexbox

Module 3 - Advanced JS

Explores JavaScript skills with DOM manipulation, asynchronous programming, and practical projects

Topics

- ✔ DOM manipulation
 - Hands-on working with any 2 project
 - Space invader game (or)
 - Rock paper scissors game (or)
 - Dice game
- ✔ Callback - Event loop
- ✔ Promise
 - What are the states in the promise?
 - Promise chaining
 - Fetch API
- ✔ Async/Await

Module 4 - ReactJS

Dives into ReactJS for dynamic single-page applications, state management, and CRUD operations with Axios.

Topics

- ✔ What is SPA?
- ✔ Overview of ReactJS
- ✔ Installation & Project setup
- ✔ Deep Down with components
- ✔ Walkthrough on conditional rendering
- ✔ Usage of state and props
- ✔ Passing data between components
- ✔ Deep Down with React hooks(useState, useEffect, useRef, useContext, etc)
- ✔ Working and implementation with React Router
- ✔ Playing around with Axios for CRUD

Module 5 - Redux

Covers state management with Redux, building applications with reducers, actions, async data fetching & other core concepts.

Topics

- ✔ Redux toolkit in Detail
- ✔ RTK structure - setting up store
- ✔ Reducers & actions
- ✔ Create Async Thunk
- ✔ Hands-on with state management application

Module 6 - Database

Explores the insights into MySQL and MongoDB databases, mastering CRUD operations and querying data.

Topics

- ✔ MySQL
 - Overview of MySQL
 - Basic CRUD queries
 - Deep Down with select query
 - Normalization & DB modeling
- ✔ MongoDB
 - Overview of SQL & NoSQL
 - Overview of MongoDB
 - Installation and basic configuration
 - Basic CRUD with command line
 - Deepdown with find - query & projection
 - Basic cursor method

Module 7 - Node.js

Focuses on backend development with Node.js, Express.js, authentication, and MongoDB integration.

Topics

- ✔ What is backend & exploring NodeJS
- ✔ Understanding & project setup
- ✔ Deepdown with packages & filesystem
- ✔ What is express.js?
- ✔ What is middleware?
- ✔ Working around with API's & Postman
- ✔ Understanding MVC and its importance
- ✔ Connecting with MongoDB & mongoose
- ✔ Authentication
- ✔ Custom middlewares

Module 8 - MERN Fullstack Demo

Guides you to unlock your full potential in the MERN stack for building cutting-edge web applications.

Build Projects For Your Portfolio

✔ YouTube Radio

You will learn to create a web radio that streams YouTube videos as just audio. Perfect your skills in API integration and user authentication while setting up personalized music streams.

✔ Music Streaming App

Build your own version of Spotify, where you can search, play, and curate music playlists. You will learn more about real-time streaming tech and how to manage user accounts smoothly.

✔ Google Docs Clone

Gain potential to develop a collaborative platform for real-time document editing and sharing. This project lets you dive into cloud storage integration and rich text features.

✔ Email Service

Get hands-on experience to create a fully functional email system with intuitive sorting, sending, and receiving capabilities. You will focus on user-friendly designs and essential features like spam filtering and attachments.

Here's what Our Learners Feel

Gnanasurya

Mobile app developer,
GoFrugal

Though I'm from a non-technical background, GUVI made me proficient in programming. I was able to learn about full-stack development from scratch and with the live projects, I was able to understand the concepts more deeply. The mentor's guidance and unparalleled assistance from the placement support team helped me to crack the interview at GoFrugal. Now, I work as a Mobile app developer at GoFrugal and I couldn't be more excited.

Pradeep S

Software Developer,
Fiserv

I owe my success as a developer to GUVI. Their CodeKata platform gave me a platform to practice my coding skills in a hands-on environment, which proved crucial in my job search. Additionally, the placement team went above and beyond to provide me with personalized support and guidance as I prepared for job interviews. Thanks to their help, I was able to land my first job as a developer at GoFrugal.

Prathamesh sarode

Full Stack Developer ,
EY

I discovered GUVI on social media and enrolled in their full-stack developer course. The teaching style was top-notch, as I could grasp the concepts easily, and whenever I had a question or concern, the mentors were readily available to provide support. However, the real game-changer was the placement team, whose guidance and support were instrumental in securing my position as a full-stack developer at EY.

Our Success Stories

ZEN
